

LARGE SCALE DEVELOPMENT SUBMITTAL CHECKLIST

The following must be turned in to the Planning Office by the plat submittal date (see schedule chart on in this packet) for your Preliminary or Final LSD Plan to be reviewed by the Planning Board no later than 2:00 p.m.

Incomplete applications will not be included on the agenda.

1. Submit a completed Large Scale Development Form.
2. Pay plat review fee:

<u>Type</u>	<u>Fee</u>
Concept Plat	\$100.00
Preliminary LSD Plan	\$500.00
Final LSD Plan	\$500.00
Preliminary High-Intensity LSD Plan	\$750.00
Final High-Intensity LSD Plan	\$750.00

3. Submit **One Digital .pdf** of the plat/plans (only plats with complete information as outlined in this packet will be accepted).
4. Submit **Digital** plat by email to the project planner or email planning@washingtoncountyar.gov
5. Submit Traffic Statement (impact development is expected to have based on increase in vehicle traffic). A full Traffic Study may be required.
6. Submit a Drainage Statement explaining the expected impact. A full Drainage Report may be required. Please refer to the attached Drainage Checklist.
7. Submit the GPM fire flow. **All fire flows and subdivision designs must meet minimum State Fire Code standards.** A flow test or engineered hydraulic study may be required for all Preliminary Plat submittals for all subdivisions proposing more than 4 lots.
8. Submit a copy of the approved Soil Work performed by a Designated Representative (D.R.) of the Arkansas Department of Health (ADH) for all lots involved.
9. (*Variance requests - if creating lot(s) smaller than 1 acre in size*) If you are asking for a waiver of a requirement, submit a completed "Variance Request Form." This form may be obtained from the Planning Office.
10. If the property is in a FEMA identified Special Flood Hazard Area (SFHA), a floodplain permit is required. Please contact the planning staff for details.

NOTES:

Please check to see if your proposed project lies within a zoned area. If so, you may be required to submit an application for a Conditional Use Permit to allow the proposed use. Please contact the Planning Office for more information at 479-444-1712 or email planning@washingtoncountyar.gov

1. Adjacent property Owner Notification (Preliminary LSD Plans only)

LSDs non-industrial or High Impact in Nature:

Per Washington County Planning and Zoning Ordinance No. 2025-044: The developer/applicant requesting LSD review shall send a certified letter to all adjoining property owners within the Notification Area of three hundred (300) feet of the exterior boundary of the property at least fourteen (14) days prior to the scheduled meeting of the Planning Board. The developer/applicant will be responsible for all certified letter mailing fees and engineering fees associated with the LSD project. The applicant (or representative) must provide proof of certified mail receipt that all notifications were mailed on or before the notification deadline. Contact the Planning Office for more details.

LSDs Industrial or High-Impact in Nature

The developer/applicant requesting HI-LSD review shall send a certified letter to all adjoining property owners within the Notification Area of 2,640 feet (1/2 mile radius) at least fourteen (14) days prior to the scheduled Planning Board meeting. Furthermore, notice shall be sent by regular mail to the County Judge and members of the Quorum Court and shall include a list of all hazardous chemicals or materials that will be used, generated or stored on said development. Hazardous chemicals or materials are defined as set out in Ordinance No. 2004-39. The applicant (or representative) must provide proof of certified mail receipt that all notifications were mailed on or before the notification deadline. Contact the Planning Office for more details.

2. Minimum Requirements enforced by County Fire Marshal

INGRESS AND EGRESS - The number of entrances and exits adequate to provide uninterrupted emergency services to all areas of the development.

- **WATER SUPPLY** - The water supply should be adequate to support fire hydrants and maintain a reasonable amount of fire flow water to the development. **(Fire Flow gpm required for Preliminary approval).**
- (Note a minimum of an 8" water line to supply hydrants is recommended. For areas of limited water supply, alternate water supplies or storage may be built to support fire-fighting operations.)
- **HYDRANT SPACING** - should comply with code according to type of development
- **APPROVED ACCESS ROADS** - for fire apparatus shall be constructed in a way that will support a minimum of 75,000 pounds in all weather conditions.
- **DEAD END ROADS** – in excess of 150' long shall be provided with an approved turn around or cul-de-sac.

Disclaimer: These minimum requirements do not inhibit the County Fire Marshal from enforcing other State Fire code issues.

3. Minimum Requirements to meet County Environmental Ordinances

In regards to the Stormwater Pollution Prevention Plan (**SWPPP**), Grading and Erosion Control regulation:

Applies to:

- Projects inside the urbanized areas, outside city limits (urbanized areas as determined by the Arkansas Department of Environmental Quality - ADEQ).
- Projects one or more acre(s) in size, and any lot in a subdivision regardless of size; in the designated areas.

If the project does fall within the designated areas Washington County will require the following, before approval is given:

1. An approved Stormwater Pollution Prevention Plan
2. Grading plans (if applicable)
3. Erosion Control Plans
4. Associated review fee

Disclaimer: These minimum requirements do not inhibit enforcing other county regulations and state law.

ADH updates regarding On-site Wastewater rule changes (as of 11/15/2024).

If a septic system services more than 20 persons a day, then they also need a Class V injection well Subsurface Disposal Permit from DEQ. Subsurface dispersal of domestic wastewater only serving fewer than 20 persons a day, requires approval from ADH (no permit required from DEQ). Subsurface dispersal of domestic wastewater serving 20 persons a day or more, requires a permit from DEQ and approval from ADH.

WASHINGTON COUNTY, ARKANSAS **LARGE SCALE DEVELOPMENT (LSD) INFORMATION**

What is a “large scale development”?

The development of a lot or parcel larger than one (1) acre developed as a single improvement. The term “development” shall include but will not be limited to the construction of a new improvement, construction of an addition to an existing improvement, or a parceling which results in the need for access and utilities; and, shall include commercial land alteration by way of excavating, quarrying, mining, or similar activities; examples include but are not limited to dirt pits, gravel pits, quarries, asphalt plants, concrete and cement plants, and any other commercial operation that would generate heavy traffic such that affected roads would require improvements or increased maintenance or present a danger to the public safety on said roads but in no event shall include a farm or other agricultural facility, nor shall it include a single family residence.

Jurisdiction

The County has jurisdiction over large scale developments in the unincorporated areas of Washington County, except as otherwise provided by law.

Review and Approval Process.

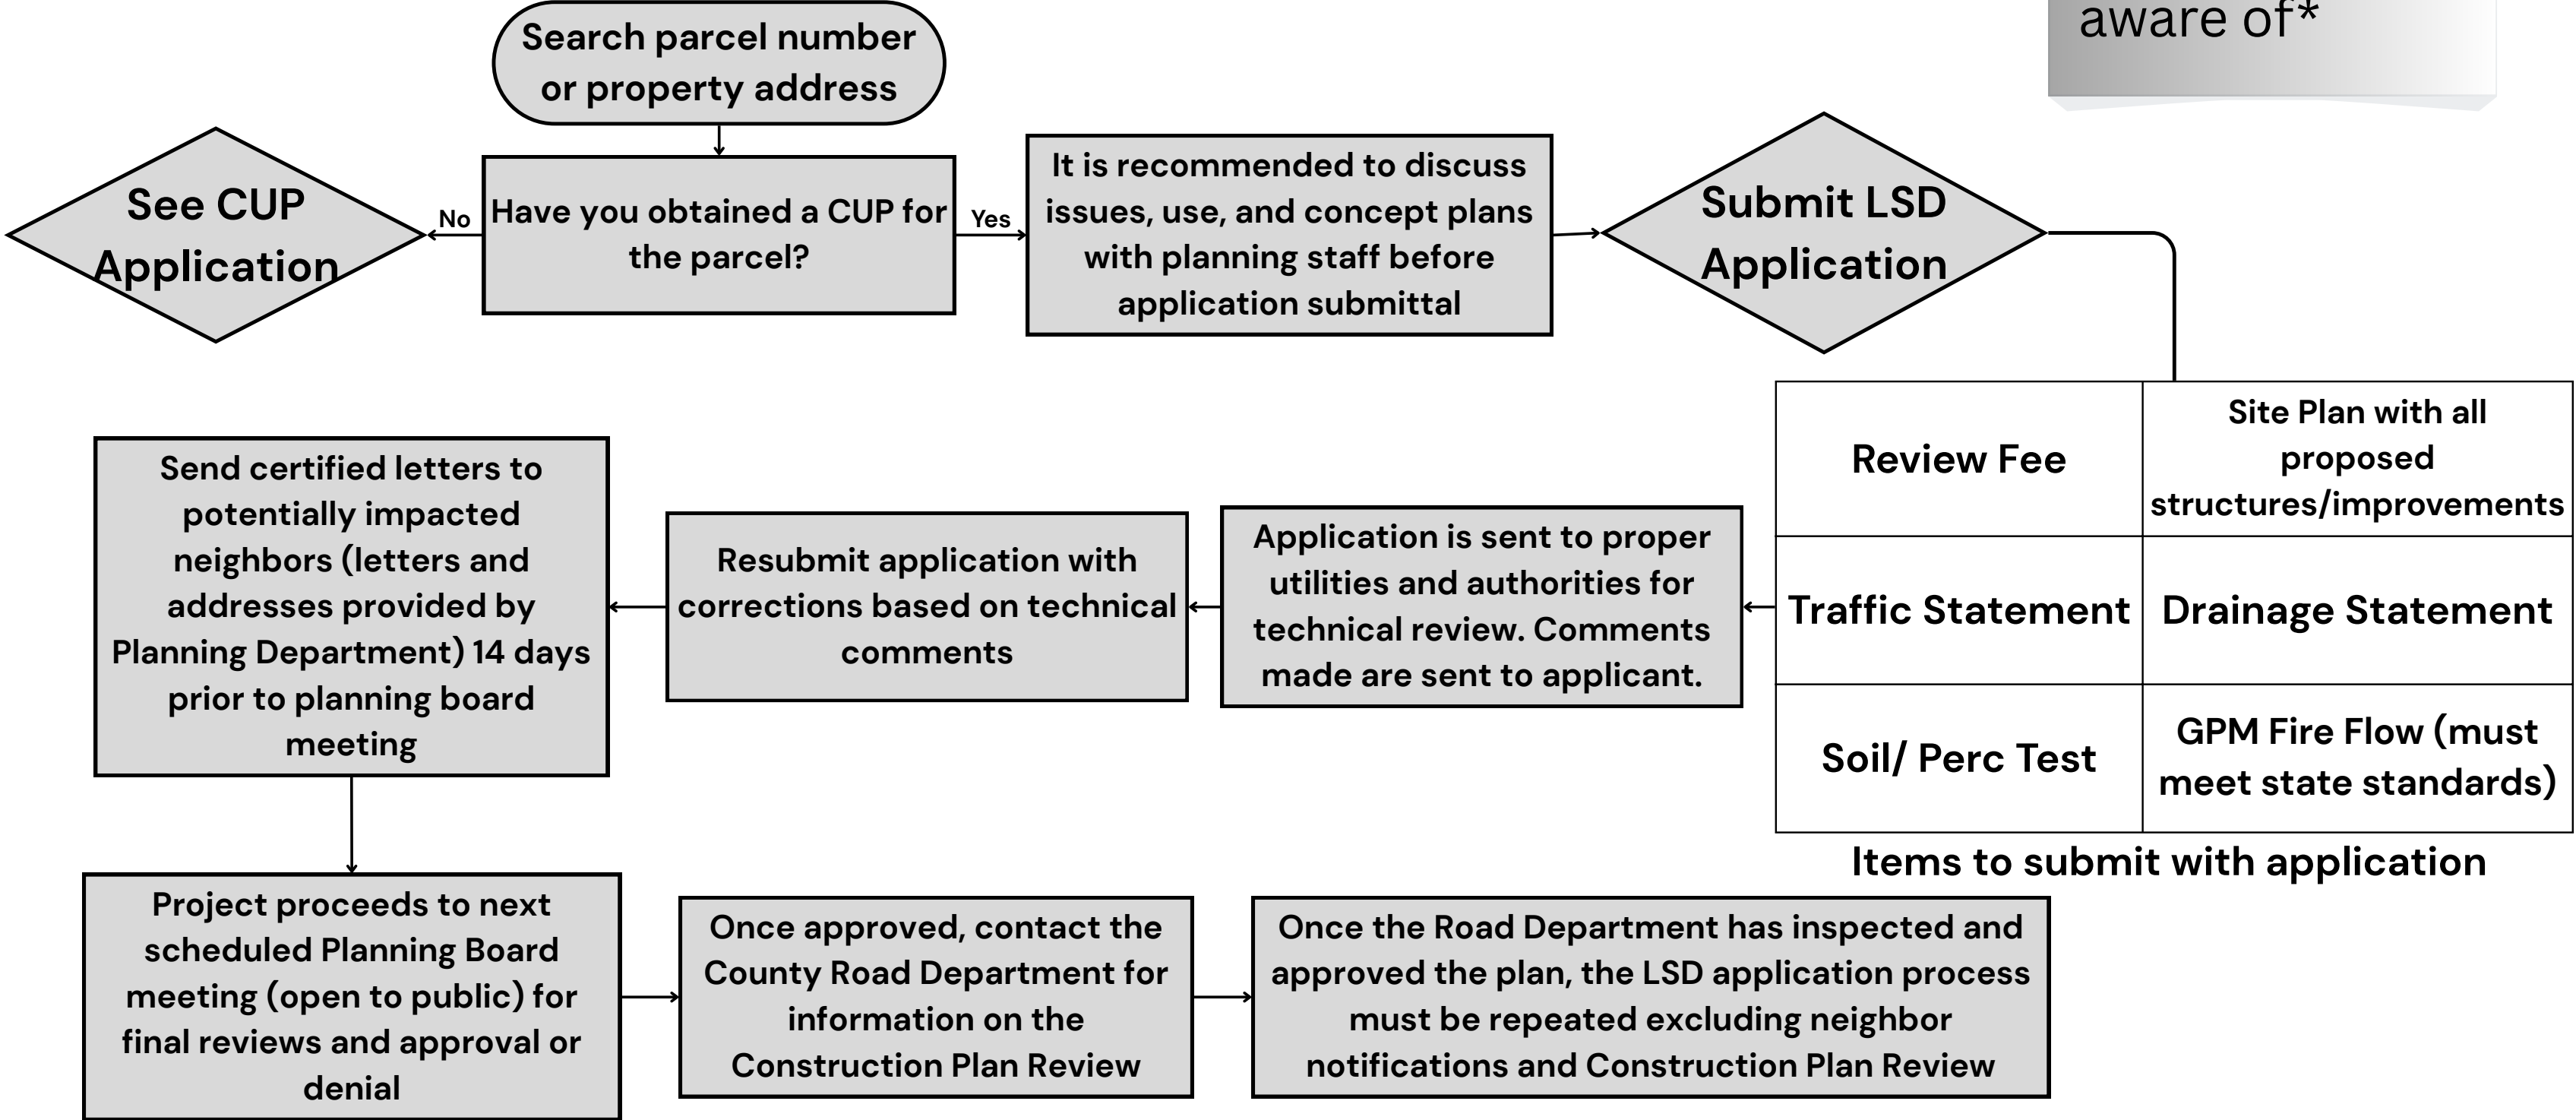

- Have County Planning Staff check the zoning of your property. A Conditional Use Permit may be required.
- Pre-planning meeting
 - Meet with County Planning Staff to have regulations explained and to obtain the necessary application forms (479) 444-1724.
 - Meet with the Health Department to have regulations explained and to obtain the necessary application forms (479) 521-8181 Ext. 2.
- Preliminary review
 - Submit a completed preliminary large scale development application submission to the County Planning Office by the submittal date for review.
 - County Staff and utility companies will review plans and submissions.
 - County Planning Department will provide the neighbor notification letters to be sent out by applicant/developer.
 - Applicant will make all needed changes to the plan submission.
 - The project will be presented to the Planning Board/Zoning Board of Adjustment.
- Construction plan review
 - Depending on what improvements will be constructed as a part of the development, construction plans and specifications for the required improvements must be submitted to and approved by the appropriate agencies and individuals (such as the County Road Superintendent, Water Authority, Health Department, etc.) prior to the advertising for bids or beginning construction.
- Final review
 - Submit a completed final large scale development application submission to the County Planning Office and the city (if the development is in a Planning Area) for review. If the development is also located within a Planning Area, the City Planning must have previously approved the plat.
 - County Staff and utility companies review plans and submissions.
 - Project will be presented to the Planning Board/Zoning Board of Adjustment.
- Signing and filing of the final plan
 - Once all the necessary approvals have been obtained, the signature blocks on the final plan must be signed and the plan must be filed in the office of the Washington County Circuit Clerk. The development may become operational only after the final plan is signed and filed and two file stamped copies are returned to the Planning Office.

Design Standards and Required Improvements.

The design standards and required improvements associated with the development of a Large Scale Development are outlined in the Washington County Code Planning and Zoning Ordinance No. 2025-044.

Large Scale Developments

See submittal schedule for important dates to be aware of

Send certified letters to potentially impacted neighbors (letters and addresses provided by Planning Department) 14 days prior to planning board meeting

Project proceeds to next scheduled Planning Board meeting (open to public) for final reviews and approval or denial

Resubmit application with corrections based on technical comments

Once approved, contact the County Road Department for information on the Construction Plan Review

Application is sent to proper utilities and authorities for technical review. Comments made are sent to applicant.

Once the Road Department has inspected and approved the plan, the LSD application process must be repeated excluding neighbor notifications and Construction Plan Review

Review Fee	Site Plan with all proposed structures/improvements
Traffic Statement	Drainage Statement
Soil/ Perc Test	GPM Fire Flow (must meet state standards)

Items to submit with application

WASHINGTON COUNTY, ARKANSAS
LARGE SCALE DEVELOPMENT APPLICATION

Notice: Preliminary or Final LSD Plans to be placed on the Planning Board Meeting agenda must have applications turned in to the Planning Office by the submittal date no later than 2 p.m. (shown on a schedule available from the Planning Office.)

PLAN CHECKLIST

The following information is required on Preliminary and Final LSD Plans as designated. LSD Plans missing more than four (4) required informational items will not be included on the agenda:

	General Information	Concept Plan	Preliminary Plan	Final Plan
(1)	Name and address of owner, developer, engineer and surveyor.	X	X	X
(2)	Name of the land development, date, graphic scale, north arrow, total acreage and individual tract acreage	X	X	X
(3)	Legal description of the property with dimensions and angles sufficient to locate all lines on the ground. Lot and blocks shall be numerically identified, boundaries shown by bearings and distance, and property located by Section, Township and Range and tied to the nearest of two (2) defined and referenced Section Corners or Quartersection Corners.		X	X
(4)	Concrete or approved aluminum monuments shall be placed at the exterior boundary corners and one-half-inch by eighteen-inch steel pins shall be placed at all lot corners.		X	X
(5)	Vicinity sketch at a scale appropriate to show the relationship of the development with surrounding improvements and communities, and other information requested by the Planning Board.	X	X	X
(6)	If stage development is involved, the complete development plan with the stages of development and construction shown.		X	X

	Existing Conditions for Land Development	Concept Plan	Preliminary Plan	Final Plan
(7)	Original <i>and proposed</i> topography at ten-foot contour intervals.		X	X
(8)	Names of adjacent land developments and ownership of adjacent property including corresponding deed book and page number. <i>Include parcel numbers.</i>		X	X
(9)	All LSD Plans presented to the planning board and filed for record shall note the uses of adjacent property. The determination of said use shall be the responsibility of the developer.		X	X
(10)	Existing roads, streets, culverts, railroads, and other features: The <i>LSD plan</i> shall show the location, name, width, surface type, surface condition and right-of-way width of all existing or platted roads, streets or other public ways within or adjacent to the proposed improvement, including features such as existing permanent buildings, water courses, railroads, municipal corporation limits, county's state lines, planning district limits, oil and gas lines or wells, abandoned wells and dry holes.	X	X	X
(11)	Existing utilities: Ownership names and dimensions on overhead and underground power and communications lines, sewers, water mains, gas mains, and other underground structures, including water wells and septic systems within the development or immediately adjacent thereto. <i>Show the existing utilities and list the utility companies on the plat.</i>		X	X
(12)	Flood areas: 1% (100-year) flood per FEMA map.	X	X	X
(13)	Watercourses: If the proposed development is traversed by a watercourse, channel, stream, creek or river, the present and proposed location of each shall be shown.	X	X	X
(14)	Soil analysis: The developer shall indicate the types of soil found in the plat area according to the USDA Soil Conservation Service.		X	X
(15)	Plat and deed restrictions: Restrictions, if any, with use and perimeters defined. Plat restrictions should be certified as to current legality by a member of the Arkansas Bar. <i>If none, add a note to the plans stating there are none. (Signature Block 6)</i>		X	X

	Proposed Improvements	Concept Plan	Preliminary Plan	Final Plan
(16)	Location, dimensions and names of all proposed roads, streets, alleys, easements, blocks, parcel and lot lines and address numbers, dedications and reservations.		X	X
	<i>Address numbers, OR on lots that are over one-half acre in size, add the following note to the plat: Lots that are over one-half acre in size will need to be addressed after the home location is known.</i>			X
(17)	Street typical sections and pavements sections for each classification of street.		X	X
(18)	Bearings and linear dimensions referenced to true north of all lines, interior angles of lots may be shown in lieu of bearings.		X	X
(19)	Proposed use of all land within the development.		X	X
(20)	Location and size of all proposed utility lines.		X	X
(21)	Drainage plan for entire area.		X	
	Sizes of all driveway and road tiles shall be stated			X
(22)	Building setback lines as fixed by the County, building lines and any setback lines established by public authority, and those stipulated in the deed restrictions and right-of-way lines.		X	X

	Information to Supplement the Plan	Concept Plan	Preliminary Plan	Final Plan
(23)	Access control: The openings for ingress and egress from the platted area to public street, road or highways.		X	X
(24)	Letter of transmittal.		X	X
(25)	Payment of review fee.	X	X	X
(26)	Certification issued by the County Tax Collector to the effect there are no delinquent taxes payable at the time of the <i>LSD Plan</i> approval.			X
(27)	Certification of survey and accuracy of survey by the surveyor. <i>(Signature Block 2)</i>			X
(28)	Certification of ownership, title and dedication by the developer. <i>(Signature Block 3)</i>			X
(29)	Certification of the developer's engineer that the design meets the County's design standards. <i>(Signature Block 1)</i>			X
(30)	Signature block for Planning Board Approval. <i>(Signature Block 8)</i>			X
(31)	Signature block for the County Road Superintendent to certify approval of streets, grading and drainage improvements and easements; and receipt of required Maintenance Bonds. <i>(Signature Block 7)</i>			X
(32)	Signature block for the Arkansas Department of Health to certify approval of water and sanitary sewer improvements. <i>(Signature Block 4)</i>			X
(33)	A notice stating: "Each individual lot developer shall obtain approval of septic system from the Washington County Health Department Sanitarian Division." <i>-May not be applicable to LSD. Provide proof that a water tap to accommodate the development is available or that there is adequate space for a well on the property along with any septic systems, as per Arkansas Department of Health Standards, which requires a minimum of 100' of separation. If a decentralized sewer system is being used. (Signature Block 10)</i>			X
(34)	<i>All remaining Signature Blocks as appropriate. (Signature Blocks 5, 6, 9, 11)</i>			X
(35)	<i>Add note to plan: Any further splitting, use or land development not considered with this approval must come before the Planning Board for a separate approval.</i>			X
(36)	<i>Add note to plan: Review of these plans is limited to general compliance with Washington County codes and regulations and does not warranty the engineer's design or relieve the developer of any requirements, even if error, omissions or any inadequacies are discover after plan approval. The County's requirement shall govern over any conflicts with the plans or specifications. Any conditions determined in the field that require changes shall be subject to further review and corrective action to be paid for by the developer.</i>			X

Items in italics were added for clarification.

Signature Blocks

1. CERTIFICATE OF ACCURACY OF STREET AND ROAD PLANS AND SPECIFICATIONS:

I certify that the street and road plans and specifications hereon comply with the requirements and specifications contained in the "Regulations, Standards and Specifications for the Division, Development and Improvement of Unincorporated Land in Washington County".

Date: _____ Engineer: _____

2. CERTIFICATE OF ACCURACY OF SURVEY:

I certify that the plan shown and described hereon is a true and correct survey and that the monuments have been placed as shown hereon as required by "Regulations, Standards and Specifications for the Division, Development and Improvement of Unincorporated Land in Washington County".

Date: _____ Surveyor: _____

3. CERTIFICATE OF OWNERSHIP DEDICATION:

I hereon certify that I am the owner of the property described hereon and I do hereby dedicate all street, access, utility, drainage easements to public or private use as indicated.

Date: _____ Owner: _____

4. STATE HEALTH DEPARTMENT APPROVAL:

The plan and specifications as shown on the plat were approved by the Arkansas State Health Department by letter.

Dated: _____ Signed By: _____

5. UTILITY EASEMENTS:

We hereby certify that all utility easements shown on this plat are satisfactory for providing service if and when service is available.

Gas: _____ Electricity: _____

Water: _____ Telephone: _____

Cable TV: _____

6. DECLARATIONS OF COVENANTS AND RESTRICTIONS (if applicable):

Covenants and restrictions are as shown on the appropriate document signed by the owner on _____, and filed with the Circuit Clerk on _____

Date: _____ Owner: _____

7. COUNTY ROAD SUPERINTENDENT APPROVAL:

(Use block 7a or 7b as appropriate, but not both.)

7a. The road and easement locations shown on this Plat, the road plans submitted, and the grading and drainage plans submitted are approved. The required maintenance bonds have been received.

County Road Superintendent: _____

Date: _____

7b. The road easements shown are approved.

County Road Superintendent: _____

Date: _____

8. PLANNING BOARD APPROVAL:

Planning Director: _____ Date: _____

8. This plat was approved by the Washington County Planning Board at a meeting on (date): _____.

Planning Director: _____ Date: _____

9. COUNTY FIRE MARSHAL APPROVAL:

This plat meets minimum fire code requirements as per current County Policy, as of June 9, 2005.

County Fire Marshal: _____ Date: _____

10. PUBLIC UTILITY COORDINATOR APPROVAL:

(Applicable when a community sewer system is being utilized.)

This subdivision is in compliance with County Ordinances regarding Community Sewer Systems.

Public Utility Coordinator: _____ Date: _____

(Note: Less signatures may be required in certain instances. Check with the Planning Administrator to see which signatures are necessary if the land development has four (4) plats or less, no road improvements, or is an exempt split).

11. COUNTY JUDGE APPROVAL:

The road easement dedications shown are approved. Acceptance of roads and streets into the County Road System will occur after they are constructed to Washington County specifications.

County Judge: _____ Date: _____

DRAINAGE REPORT CHECKLIST
Washington County Arkansas

Project Name: _____

Date: _____

	Preliminary	Final	
_____	1. x	x	PROJECT TITLE & DATE
_____	2. x	x	PROJECT OWNER - Include address and telephone number.
_____	3. x	x	PROJECT LOCATION - Include Vicinity Map and address.
_____	4. x	x	PROJECT DESCRIPTION - Brief description of proposed project.
_____	5. x	x	AERIAL PHOTOGRAPH - Include project area and areas that contribute to runoff.
_____	6. x	x	PRE DEVELOPED DRAINAGE AREA MAP - Include current conditions for the drainage area that contributes to runoff. Show offsite and onsite drainage. Show contour information to the nearest ten feet. Include different drainage areas and flow patterns.
_____	7. x	x	POST DEVELOPED DRAINAGE AREA MAP - Include proposed conditions for the drainage area that contributes to runoff. Show offsite and onsite drainage. Show contour information to the nearest ten feet. Include different drainage areas and flow patterns.
_____	8. x	x	DRAINAGE DESCRIPTION - Description of the drainage onto, through, and away from the site.
_____	9. x	x	AREA DRAINAGE PROBLEMS - Description of any known onsite or downstream drainage or flooding problems
_____	10. x	x	SITE DRAINAGE - Description of site drainage for the proposed project. Describe existing and proposed conditions.
_____	11. x	x	CALCULATION METHOD - Describe method of calculation and software used.
_____	12. x	x	WRITTEN CONCLUSION OF PROPOSED IMPROVEMENTS - Include a summary of the proposed improvements, condition of downstream receiving areas, increase in flows, and detention or lack of detention.
_____	13. x	x	SUMMARY OF RUNOFF TABLE - A table with 2-, 10-, 25-, 50-, and 100-year storm flow comparisons for existing and proposed conditions.

	Preliminary	Final	
_____ 14.		x	DESIGN STORM CALCULATIONS - Design flow calculations for each culvert, inlet, open channel, or other drainage structures. Summarize by tables.
_____ 15.		x	PAVEMENT DRAINAGE DESIGN - If curb & gutter is used, include width of spread for design flow.
_____ 16.		x	100- YEAR WATER SURFACE ELEVATION COMPUTATION - The water surface elevation resulting from the 100-year storm for all overland flow, including flow in the streets, parking lots, swales, and between lots shall be calculated and shown on the construction plans. Minimum floor elevation shall be shown a minimum of two feet above the 100-year flood elevation on each lot when located in a designated floodplain. Minimum floor elevations for other area shall be a minimum of one foot above the calculated 100 year water surface elevation of open channels, swales or overland flow.
_____ 17.	x	x	STORMWATER DETENTION DESIGN - Include a table with 2-, 10-, 25-, 50-, and 100-year storm flow comparisons for existing and proposed conditions and detention volumes. If detention is not proposed by the Design Engineer, then the Design Engineer must submit hydrographs to document the effect of the combined runoff exiting the proposed project.
_____ 18.	x	x	<p>LIABILITY STATEMENT - The Design Engineer shall stamp and sign the following statement:</p> <p>" I, _____, Registered Professional Engineer No. _____ in the State of Arkansas, hereby certify that the drainage studies, reports, calculations, designs, and specifications contained in this report have been prepared in accordance with standard engineering practices and with the requirements of Washington County. Further, I hereby acknowledge that the review of the drainage studies, reports, calculations, designs, and specifications by Washington County or its representatives does not relieve me from my professional responsibility or liability.</p>

-Large-scale development standards (Ordinance No. 2025-044 Section 4(C)(18)(a)).

(a) *Large-scale developments* is hereby redefined as follows:

(1) The development of a lot or parcel larger than one (1) acre developed as a single improvement. The term "development" shall include but will not be limited the construction of a new improvement, construction of an addition to an existing improvement, or a parceling which results in the need for access and utilities; and,

(2) Shall include commercial land alteration by way of excavating, quarrying, mining, or similar activities; examples include but are not limited to dirt pits, gravel pits, quarries, asphalt plants, concrete and cement plants, and any other commercial operation that would generate heavy traffic such that affected roads would require improvements or increased maintenance or present a danger to the public safety on said roads but in no event shall include a farm or other agricultural facility, nor shall it include a single family residence.

(b) This section shall be applicable only to large-scale developments as set out in subsection (a)(2) above.

(c) Such large-scale developments shall be set back from the edge of any County or public road no less than two hundred fifty (250) feet.

(d) The approach to such large-scale developments from the edge of County or public road to the edge on the development shall be no less that forty (40) feet in width and paved in accordance with specifications to be promulgated by the County Road Superintendent so as to decrease dust, dirt, and mud from being deposited on and around County and public roads. This provision shall not apply to any large-scale development which is situated on an unpaved County or public road; however, in the event said road is later paved then this article will apply to said large-scale development three (3) years from the date of pavement.

(e) Every large-scale development shall develop and submit a dust abatement plan to prevent dust from causing a traffic hazard on County and public roads. Said plan shall include, in accordance with regulations to be promulgated by the County Road Superintendent, the applying of water or a dust palliative as needed.

(f) Every large-scale development shall maintain and clean the approaches as set out above on a regular basis and shall be responsible for removal of any foreign objects on a County or public road which have been deposited on said road as a result of activity generated by said development.

(g) All large-scale developments shall require any vehicle leaving its facility to be securely covered and/or sealed so as to prevent any load from dropping, sifting, leaking, or otherwise escaping therefrom regardless of the date of manufacture as set out in Ark. Code Ann. § 27-35-110.

(h) For reasons of public safety, this article shall have retrospective application to existing large-scale developments three (3) years from the enactment of this section. When there are unique, unnecessary, and unreasonable hardships in applying the strict letter of this section, said large-scale development may apply to the Planning Board for a variance. Financial impact alone shall not be grounds for such variance.

(i) If any large-scale development desires to begin operations before complying with any provision of this section it shall post an acceptable surety bond, cash or irrevocable letter of credit to ensure said compliance in the amount of one hundred twenty-five (125) percent of the estimated cost of said improvements and in any event must be in compliance with this section no later than one (1) year from the date of final approval by the Planning Board.

(j) This section shall be immediately applicable to any existing large-scale development that expands its operation after the effective date herein; unless prior to the passage of this section there have been substantial steps taken towards implementation of the expansion, or there has been substantial investment made, or substantial obligation incurred on the part of the development in regard to such expansion.

(k) Road and right-of-way standards are hereby set as follows for large-scale developments that are wholly or partially residential in character:

DWELLING UNIT		RIGHT-OF-WAY	ROAD
(A)	Single-Family		
	Number of units:		
	1 to 4	30 feet	Private
	5 to 10	50 feet	Private
	Over 10	Public: See minimum standards for roads to be dedicated to the county for maintenance	Public: See minimum standards for roads to be dedicated to the county for maintenance
(B)	Duplex/Triplex		
	Number of units:		
	1 to 4	30 feet	Private
	5 to 10	50 feet	Private
	Over 10	Public: See minimum standards for roads to be dedicated to the county for maintenance	Public: See minimum standards for roads to be dedicated to the county for maintenance
(C)	Other Multifamily (road/street leading to the parking lot) parking lot/area must be private		
	Number of units:		
	1 to 4	30 feet	Private
	5 to 10	50 feet	Private
	Over 10	Public: See minimum standards for roads to be dedicated to the county for maintenance	Public: See minimum standards for roads to be dedicated to the county for maintenance
(D)	Other Large-scale Developments (including, but not limited to, RV Parks and storage facilities)		20 feet minimum width driving surface; ability to withstand 75,000 pounds in all weather conditions; adherence to State Fire Code with regards to access*

* Nothing herein shall be construed as allowing non-adherence to the State Fire Code where otherwise applicable.

All new private road large scale developments must have their proposed private roads named according to 9-1-1 procedure (submittal and approval of the proper paperwork through the 9-1-1 Addressing Office) prior to the final plat approval. The private road developer or applicant shall be responsible for erecting the street sign stating the name of the private road prior to final plat approval. The sign placement must be inspected by the 9-1-1 Addressing Office or the County Planning Office, and be in accordance with U. S. Department of Transportation Manual on Uniform Traffic Control Devices.

(l) The following public utility services and structures are hereby exempt from the Washington County Code provisions concerning large-scale developments:

- (1) Utility boxes;
- (2) Passenger stops for buses;
- (3) Police alarm boxes;
- (4) Historical markers, watershed improvement projects, water conservation projects, or flood control projects;
- (5) Utility mainline, local transformer and station, water pump stations, waterline flushing assembly, water storage facilities, PRV vaults, electric regulation stations, sewage lift station, manholes, natural gas pressure control stations, individual septic systems, other necessary structures and equipment for water, sewage, and other utility facilities. However, in residential areas, lift stations and pump stations may be required to insulate their station machinery, if the noise produced by such machinery would be an annoyance to the surrounding residential community.
- (6) Booster generators, not owned by a utility, which are utilized for homes, poultry houses and other agricultural facilities.
- (7) Any additions or expansions of existing municipal fire department or volunteer fire department buildings or facilities.

(m) The following public utility services and structures are hereby not exempt from the Washington County Code provisions concerning large-scale developments:

- (1) Other utility uses, such as power generation facilities, solid waste disposal facilities, water or sewage treatment plants not part of a specific land development, and natural gas compressor stations.
- (2) Nothing herein shall be construed to mean that any land development itself that utilizes any of the aforesaid is exempt from the land development process.

-Hazardous chemicals.

(a) This section shall be applicable only to large-scale developments as set out in Washington County Planning and Zoning Ordinance No. 2025-044.

(b) Notice shall be sent to surrounding property owners, by the developer/applicant, within the Notification Area of 2,640 feet (1/2 mile radius) at least fourteen (14) days prior to the meeting of the Planning Board at which time the LSD plat shall be reviewed; stating the date, time, and place of the proposed development review. Furthermore, notice shall be sent by regular mail to the County Judge and members of the Quorum Court and shall include a list of all hazardous chemicals or materials that will be used, generated or stored on said development. Hazardous chemicals or materials are defined as set out in Ordinance No. 2004-39.

- (c) Any such large-scale development must post a surety bond in the amount of fifty thousand dollars (\$50,000.00) for financial assurance that it will properly manage any such chemicals.
- (d) The Planning Board may postpone any action until all other legal and/or environmental requirements of any other local, State, or federal agency have been met.
- (e) If any land development raises environmental concerns, the Planning Board may, at the expense of the developer, retain its own qualified consulting engineer to assist it and the Planning Director in assuring that all environmental issues have been properly addressed by the developer and its engineer. Said consulting engineer shall maintain an office no greater than one hundred (100) miles from Washington County.
- (f) Public comments shall be taken prior to any decision by the Planning Board at the preliminary plat stage and the final plat stage. Approval of the preliminary and final plat shall not take place at the same meeting and the approval of the final plat shall be no sooner than the next regularly scheduled meeting.

-Vehicular access from private drive.

- (1) No land development, including those subject to exemption as set out in Washington County Planning and Zoning Ordinance No. 2025-044, shall be approved if any anticipated structure's driveway shall be so arranged such that it is necessary for a vehicle to back out onto any County or public road.
- (2) Every owner or developer of any such land development shall certify that no driveways shall be constructed in violation of this section and such shall be noted on any plat or exemption application.
- (3) No structure or driveway, regardless as to whether it is part of a land development, shall be built, installed or erected in such a manner that it will be necessary for any vehicle to back out onto any County or public road.
- (4) This section shall not be applicable to interior roads in a land development.

-Area of Jurisdiction.

This Article shall apply to all unincorporated areas of Washington County.

Conditional Use Permits, Variances, Subdivision Plats, and Large Scale Development Plans to be placed on the Planning Board & Zoning Board of Adjustment meeting agenda must be turned into the Planning Office by 2:00 p.m. on the submittal date shown on the schedule. All items required must be included with your submittal (this includes soil work, drainage reports, traffic reports/studies, fire flow etc. - when required). Please consult the project's checklist to ensure that you have all items required for submittal or your project will not be placed on the agenda. Planning staff will provide neighbor notification letter/address list that needs to be sent out by applicant.

If approved by the Planning Board, Conditional Use Permits must be ratified by the Quorum Court. This ratification usually takes place at the next regularly scheduled Quorum Court meeting. Any applicant or member of the public may appeal the approval or denial of a CUP within thirty (30) days of the Planning Board's decision. Contact the Planning Office for appeal forms and additional details.
